

2900 S. Highway 77 • Lynn Haven, FL 32444 **850-481-1687**

At Hope Radiation Cancer Center, our mission is to provide hope to every patient through the most effective and compassionate cancer treatments.

WHY CHOOSE HOPE RADIATION CANCER CENTER FOR YOUR PATIENTS?

Cutting-Edge Technology - Close to Home

The linear accelerator utilized at Hope Radiation Cancer Center (the "Clinac iX") is newer and more efficient than the linear accelerators utilized at other practices. The Clinac iX can perform treatment modalities (IMRT, IGRT, RapidArc technique) that cannot be performed by older generation linear accelerators.

Opened in 2012, this facility is the newest radiation therapy center in Bay County, FL

Modern, ACR-Certified Facility

The only radiation therapy center in Bay County that is accredited by the American College of Radiology (ACR). ACR accreditation is the "gold standard" for accreditation of radiation therapy centers.

Board-Certified Radiation Oncologist

Hasan Murshed, M.D., who serves as the Medical Director of Hope Radiation Cancer Center, is board-certified by the American Board of Radiology (ABR), and received his fellowship training at the M.D. Anderson Cancer Center.

An Experienced and Trusted Care Team

Dr. Murshed and his staff continue to receive outstanding patient reviews on independent consumer websites such as Vitals.com and Healthgrades.com.

The Logical Choice for the Care and Respect your Patients Deserve
